Project Title: Goblin Sharks Website

Goblin sharks are one of my favorite types of sea-life and I envision this website as an educational yet engaging group of four or five pages all with the same format. A dark and minimal look to evoke the deep sea with plenty of images of the sharks and their environment would be great! If there's any way to evoke a submarine in the page design, it could be a cool direction.

Categories (each could be its own page)

- Homepage (What are Goblin Sharks?)
- Goblin Shark Anatomy andTaxonomy
- Distribution and Habitat
- Diet and Feeding
- Human Interaction
